

Fireside Tribe Website - Design & Color Implementation Guide

1. Brand Color Palette

Primary Colors:

- Fireside Red: #A41E22
- Tribe Gold (Yellow): #FFD700
- Accent Green: #26C000
- Charcoal Text: #1A1A1A
- White: #FFFFFF

Use these exact hex codes for consistency in all web and graphic elements.

2. Header / Navigation Bar

- Background: White (#FFFFFF)
- Text Color: Fireside Red (#A41E22)
- Logo: Increase size by ~25% for desktop visibility.
- Font: Montserrat Bold (or equivalent)
- Keep mobile header as-is (currently readable and clear).

3. Hero Section (Podcast Intro)

- Background: Fireside Red (#A41E22)
- Title: White (#FFFFFF)
- Subtitle: White (#FFFFFF)
- Accent Label: Tribe Gold (#FFD700) with red text (for 'PODCAST' tag)

- Add Mic Icon (black or dark gray) to right side of title.
- Remove complex background patterns for a clean, bold visual.

4. Latest Episodes

7. Join the Tribe (Newsletter)

- Background: Tribe Gold (#FFD700)

- Title: Red (#A41E22)

- Email Input: White background with black text.

- Subscribe Button: Fireside Red (#A41E22) with white text (FFFFFF)

8. Social Media Integration

Update links and ensure all social icons are active and visible in either footer or header:

- Spotify
- YouTube
- Instagram

Icons: Use flat monochrome versions with equal spacing and minimal size.

9. Typography

Recommended Fonts:

- Headings: Montserrat ExtraBold / Oswald Bold
- Body Text: Poppins Regular / Open Sans Light
- Buttons: Montserrat Bold (all caps)
- Ensure consistency in size, weight, and color across sections.

This guide reflects the finalized design direction for the Fireside Tribe website redesign.
